

Patrick Louchouart, PhD

Texas A&M University at Galveston

1001 Texas Clipper Rd, Bldg 3029, TX 77554

Phone: (409) 740-4409; Cell phone: (713) 263-4528; Email: loup@tamug.edu

ADMINISTRATIVE EXPERIENCE

Vice President of Academic Affairs & Chief Academic Officer, TAMUG. 2012-present

Serve as Chief Academic Officer and chief research administrator for Texas A&M University's branch campus at Galveston. Associate Provost at Texas A&M University.

- Manage a campus with seven Departments, 125 Faculty, an annual budget of ~\$50M.
- Oversight of research programs (average of \$5-6M per year in research expenditures) and Office of Graduate Studies (three PhD and five Masters programs).
- Develop strategic plan for growth in enrollment, Faculty recruitment, and research programs.
- Develop a strategy to restructure the Departments of Engineering and Technology into a School-like unit with oversight over the diverse engineering degrees.
- Work with Legislature representatives to raise Tuition Revenue Bonds for the construction of a new academic building on campus.
- Lead the strategic positioning of Texas A&M University at Galveston in Texas A&M's Capital Campaign (first time TAMUG is integrated in the campaign of the Texas A&M Foundation).
- Evaluate Department Heads' annual performance and campus wide P&T dossiers (humanities, social sciences, business, maritime transportation, engineering, and natural sciences).

Department Head, Dept. of Marine Sciences. Texas A&M University at Galveston. 2010-2013

Serve as chief administrative officer for academic and research activities of a highly multidisciplinary department at Texas A&M University at Galveston. Monitor and update curriculum. Recruit and retain qualified and diverse faculty/staff. Serve on University level committees including advisory committees. Evaluate Faculty/Staff annual performance.

- Manage an academic unit of 44 Faculty, staff, and postdocs with an annual budget of ~\$2.5M and generating an average of \$3-4M per year in extramural research funds.
- Develop the research and scholarship activities of the Department at both undergraduate and graduate levels: Successfully attracted funds from private foundations and philanthropic organizations to support the development of research programs in environmental/marine sciences.
- Lead the development of a) a Ph.D. program in Marine and Coastal Resources Management, b) a five-years combined B.Sc-M.Sc. professional program in Ocean and Coastal Resources, and c) a collaborative "semester away" program for a B.Sc. in Urban and Regional Planning.
- Initiate the process of Faculty rejuvenation in spite of a very difficult budgetary climate: Through the restructure of expenditures, secured funds to recruit four new Faculty into the Department.
- Mentor junior Faculty towards P&T evaluations. Review of six dossiers during tenure at Texas A&M.

Director of Research, Dept. of Marine Sciences. Texas A&M University at Galveston. 2009-2010

Coordinated the post-award research activities of one of the most active and funded academic departments on campus.

- Coordinated the research activities of the Dept. during a move to a new research Facility on campus.
- Management of administrative staff for post-award management of extramural research funds.

Associate Director, Masters Program in Public Administration (MPA). Columbia University. 2003-2006

Developed and monitored the science curriculum of a new professional graduate degree (MPA) in Environmental Science and Policy at Columbia University's School of International and Public Affairs. Recruited and retained qualified and diverse professional adjunct faculty. Managed teaching assistants. Mentored graduate students in professional internships (research labs or regulatory agencies).

- Ensure the full integration of the science curriculum in the program's social science structure.
- Develop and teach several modules relying on modern educational methods (Environmental Chemistry and Regulatory Toxicology, Ecosystem Functioning and Biogeochemical Cycling, and Hydrology and Climate).
- Contribute to increased enrollment (~40% over 4 years).

EDUCATION

Post-Doc. (NSERC)	Chemical Oceanography, University of Texas at Austin, 1998-1999
Ph.D.	Environmental Sciences, University of Québec in Montréal (UQAM), 1997
M.Sc.	Environmental Sciences, University of Québec in Montréal (UQAM), 1992
B.Sc.	Marine Biology - McGill University, 1989

PROFESSIONAL EXPERIENCE

2011-present	Professor , Dept. of Marine Sciences (Texas A&M University at Galveston) and Dept. of Oceanography (Texas A&M University).
2006-2011	Associate Professor (Tenured by Texas A&M University), Dept. of Marine Sciences (Texas A&M University at Galveston) and Dept. of Oceanography (Texas A&M University).
2002-2006	Associate Professor , Columbia University, Dept. of Earth and Environmental Sciences & School of International and Public Affairs.
2000-2002	Assistant Professor , Texas A&M University-Corpus Christi, Dept. of Physical and Life Sciences.
1999-2000	Associate Research Scientist , Texas A&M Engineering Extension, Research position in environmental geochemistry. Director of environmental laboratory (metals/organics).
1998-1999	Post-Doctoral Fellow , University of Texas at Austin, Marine Science Institute.
1997	Post-Doctoral Fellow , University of Québec in Montréal.
1992-1997	Adjunct Professor , UQAM, Dept. of Earth and Atmospheric Sciences.

EDUCATIONAL ACTIVITIES

Teaching at the university level, since 1992, courses that can be grouped into the three following thematic “threads”: Courses that address the needs of the university core curriculum for general science classes and which are integrated into a “liberal arts” degree structure; courses that are specifically designed as upper level electives for technical careers in science and technology (biotechnology, environmental science, medicinal chemistry) and can be used towards minors in chemistry or as pre-med electives; courses that integrate science analysis into non-research professional majors (pre- and in-service teacher certification, environmental and natural resource management, public policy).

Undergraduate: General Core Curriculum (Science)

- *Earth System Science* (bilingual: English & Spanish; Online version)
- *Environmental Sciences*
- *Oceanography* (also as upper level elective)

Undergraduate: Upper Level Curriculum in Environmental Sciences

- *Instrumental Analysis* (for biotechnology, environmental science, medicinal chemistry)
- *Quantitative Chemical Analysis* (for biotechnology, environmental science, medicinal chemistry)
- *Sophomore and Senior Seminars*

Graduate: Curriculum in Environmental Management

- *Climate Change and Water Resources* (Masters in Public Administration)
- *Ecosystem Functioning and Biogeochemical Cycling* (Masters in Public Administration)
- *Environmental Chemistry and Regulatory Toxicology* (Masters in Public Administration)
- *Environmental Economics in Oceanography* (Masters in Marine Resource Management; Online)

RESEARCH ACTIVITIES

Collaborative funding through a diversity of State to National level programs (NSF, NOAA, NASA, USGS). Some of these applied research efforts provide environmental agencies with the scientific information needed to support effective policies related to water and air quality management at the regional scale. All of these projects supported a number of graduate and undergraduate students.

- Attracted \$1.5M directly to my group out of a total of \$3.3M in collaborative grants (2007-2014).
- 25 Grants since 1997 (see complete list of funded projects below).
- Since joining Texas A&M University – Galveston, raised ~\$900,000 from internal and external funding sources to renew and expand instrument “park” in support of the environmental geochemistry research (2 GC/MSMS, Hg analyzer, CHN analyzer, ASE extractor, LA-ICPMS).

INTERNATIONAL ACTIVITIES

- 2010-present: **Permanent Jury Member (Co-Chair in 2012):** International Partner University Fund - Grant Foundation. U.S. member of a team of 8 jury (4 from U.S. and 4 from France) that recommend funding of international projects (15-20/year) in humanities, social sciences, and natural sciences collaboratively undertaken by French and American institutions (supported by the *Institute for International Education* and the *Mellon Foundation*).
- 2005 **Invited Professor** (Sabbatical), *École de Sciences Politiques* (Sciences Po)/American Center - Paris. Participated in a joint project with a consortium of French universities towards the development of a professional Master program in sustainable development.
- 2005 **Invited Professor** (Sabbatical), *Institut National de Recherche Agricole* (INRA) - Versailles-Grignon. Biogeochemistry of soils and sediments.
- 2001-2002 Developed a bilingual course (Spanish and English) in Earth System Science to fulfill curricular needs in universities of Mexico, Chile, and Puerto Rico thanks to a NASA grant and a MOU with the international *Consortio Educativo para la Protección Ambiental*.

International Research Collaborations

- Dr. Gerard Cornelissen (Norway) - Norway Geotechnical Institute
Dr. Cornelia Rumpel (France) - National Institute of Agricultural Research
Dr. Chonlin Lee (Taiwan) - National Sun Yat Sen University
Dr. Toru Ishikawa (Japan) - University of Tokyo
Dr. Roman Teisserenc (France) – National Polytechnic Institute of Toulouse
Dr. Camilla Snowman Andresen (Denmark) - Geological Survey of Denmark and Greenland
Dr. Marc Lucotte (Canada) - University of Quebec in Montreal
Dr. Yves Gelinás (Canada) - Concordia University
Dr. Laura Sánchez-García (Spain) - Catalan Institute of Climate Sciences (IC3)
Dr. Tíbisay Pérez (Venezuela) – Venezuelan Institute for Scientific Research (IVIC)

EXTERNAL SERVICE

Series Editor: *Nature: Education-Knowledge Project* (Environmental Sciences). 2011-present

External Reviewer:

External Review Committee: Marine Sciences Laboratory – Pacific Northwest National Laboratory

Tenure and Faculty Dossiers: Georgia State University (Associate Dean - Education); National University of Singapore (Associate Professor of Chemistry).

Proposals - NSF, ACS-PRF, Hudson River Foundation, Irish Research Council for Science, Engineering and Technology (IRCSET), French Agence Nationale de la Recherche, Swiss NSF.

Journals – *Analytical Chemistry; Applied Geochemistry; Biogeochemistry; Biogeosciences; Chemosphere; Environmental Pollution; Environmental Science & Technology; Estuarine, Coastal & Shelf Science; Geochimica et Cosmochimica Acta; Global Biogeochemical Cycles; J. of Environmental Radioactivity; J. of Exposure Science & Environmental Epidemiology; J. of Geophysical Research-Biogeosciences; Limnology & Oceanography; Marine Chemistry; Organic Geochemistry; Soil Science Society of America J.; Wetlands.*

INSTITUTIONAL SERVICE

- 2012-present: Member of Advisory Councils of the Executive Vice President and Provost (Texas A&M University) and of the Vice Chancellor (Texas A&M System).
- 2010-2012: Member, Advisory committees of the V.P. of Academics and Research, Assessment Council Committee, and Academic Advisory Council Committee (Texas A&M Galveston)
- 2006-present: Member, Graduate Instruction Committee (Texas A&M Galveston)
- 2008-2011: Member, Faculty Senate and Diversity Sub-Committee (Texas A&M University)
- 2007: Chair, Tenure & Promotion Review Committee (Texas A&M Galveston, Dept. Marine Sciences)
- 2007-2011: Member, University Research Advisory Committee (Texas A&M Galveston)
- 2007-2010: Member, Graduate Recruiting and Academic Advisory Committee (Texas A&M)
- 2007-2008: Member, University Academic Enhancement Steering Committee (TAMUG)
- 2007: Member, Chemical Oceanography Faculty Search (Texas A&M)

- 2003-2006: Associate Director and Science Curriculum Director – Masters of Public Affairs in Environmental Science and Policy (Columbia University)
- 2003-2006: Graduate Admissions Committee – MPA-ESP (Columbia University)
- 2004-2005: Graduate Admissions Committee (Columbia University, Earth & Environmental Sciences)

AWARDS

- 2010: Distinguished Achievement Award. Texas A&M University - Association of Former Students.
- 1998-2000: Post-Doctoral - NSERC
- 1994-1996: Eco-Research, Canadian Ministry of the Environment (Ph.D.)
- 1992-1994: NSERC (Ph.D.)
- 1993-1994: Scientific Council of Québec (Ph.D.)
- 1991-1992: Fondation Université du Québec (M.Sc.)
- 1989: Penhallow Price in Biology (McGill University).
- 1987-1989: University Scholar Fellowships (McGill University).

American Chemical Society
 American Society of Limnology & Oceanography
 American & European Geophysical Union

GRADUATE AND UNDERGRADUATE STUDENTS

- Matt Norwood, (Advisor): Ph.D. ongoing. Texas A&M University – Oceanography. B.Sc. Senior Thesis. Texas A&M University. 2011
- Allison Myers-Pigg, Ph.D. ongoing (Advisor): Texas A&M University - Oceanography.
- Kendra Kopp, (Advisor): M.Sc. ongoing. Texas A&M University at Galveston. B.Sc. Honors Senior Thesis. Texas A&M University. 2012-2013.
- Ching-Ping Lu, Ph.D. ongoing (Thesis Committee). Texas A&M University - Oceanography.
- Josh Williams, Ph.D. ongoing (Thesis Committee). Texas A&M University - Oceanography.
- Mohammad Al Mukaimi, M.Sc. (Thesis Committee). Texas A&M University - Oceanography. 2013
- Xin-Xin Li, Ph.D. (Thesis Committee). Texas A&M University – Oceanography. 2012
- Sally Walker, Ph.D. (Thesis Committee). Texas A&M University - Oceanography. 2012
- Kaycee Peirce, B.Sc. Honors Senior Thesis. (Advisor). Texas A&M University. 2012
- Richard Smith, Ph.D. (Thesis Committee). Texas A&M University - Oceanography. 2011
- Kandice Williams, NSF-REU (Summer 2011)
- Heili Lowman, NSF-REU (Summer 2010)
- Stacey Moller, NSF-REU (Summer 2010)
- Shaya M. Seward, M.Sc. (Advisor). Texas A&M University - Oceanography. 2010
- Omar R. Harvey, Ph.D. (Thesis Committee). Texas A&M University - Geology & Geophysics. 2010
- Li-Jung Kuo, Ph.D. (Co-Advisor). Texas A&M University - Geology & Geophysics. 2009
- Brandon Laroy, M.Sc. (Thesis Committee). Texas A&M University - Fisheries. 2009
- Ryan Schloesser, M.Sc. (Thesis Committee). Texas A&M University - Fisheries. 2009
- Danielle Aguirre, B.Sc. Senior Thesis. (Advisor). Texas A&M University. 2010
- Christina Pondell, B.Sc. Senior Thesis. (Advisor). Texas A&M University. 2009
- Marie Alexis, Ph.D. (External Thesis Reviewer). Université Pierre et Marie Curie. 2007
- Lillian Pitts, MPA (Advisor). Columbia University. 2004
- Stephane Houel, Ph.D. (Thesis Committee). University of Québec in Montréal. 2003
- April Patterson, MPA (Advisor). Columbia University. 2003
- Brion Dolan, B.Sc. Senior Thesis. (Advisor). Texas A&M University-Corpus Christi. 2002
- Jill Brandenberger, M.Sc. (Advisor). Texas A&M University–Corpus Christi. 2001
- Jason Clark, M.Sc. (Advisor). Texas A&M University– Corpus Christi. 2001

POST-DOCTORAL ASSOCIATES

- Dr. Stephane Houel, University of Québec in Montréal. 2003-2005

PEER-REVIEWED PUBLICATIONS (Students/Post Docs underlined)

Papers in Preparation (Draft in existence)

Louchouart, P., J.M. Brandenberger, L.-J. Kuo, E.A. Crecelius, V. Cullinan G.A. Gill, C. Garland, J. Williamson, and R. Dhammapala. (2013 – *In Preparation*). Contribution of atmospheric deposition to annual loads of heavy metals, fire retardants, and combustion-derived PAHs to the surface of Puget Sound, WA. *Atmospheric Environment*.

Myers-Pigg, A.N., **P. Louchouart**, R.M.W.Amon, K. Peirce, and A. Prokushkin. (2013 – *In Preparation*). Labile pyrogenic DOC in major Arctic rivers: Implications for wildfire-stream metabolic linkages. *Science*.

Norwood, M., **P. Louchouart**, L.-J. Kuo, and O.R. Harvey (2013 – *In Preparation*). The selective solubilization of Pyrogenic Water Soluble Organic Matter (Py-WSOM) extracted from low to mid temperature charcoals. *Environmental Science & Technology*.

Armitage, A.R., W.E. Highfield, M.J. Norwood, N. White, S.D. Brody, and **P. Louchouart** (2013 – *In Preparation*). Mangrove expansion on the Texas coast from 1990-2010. *Global Change Biology*.

GRANTS AND CONTRACTS

Pending Research:

- NSF (STEM Education): Jump in the Water: "A Transitional Program in the Marine STEM Fields". 2014-2018. (PI).

Awarded Research:

- NASA-USDA (Carbon Cycle Science Program): "Examining the relationships between land use change, wetland alteration, and carbon sequestration in the Gulf of Mexico". (PI). 2011-2014.
- The Welch Foundation: Departmental grant to enhance undergraduate research in chemistry at Texas A&M University-Galveston. 2011-2013. (PI)
- Geological Survey of Denmark and Greenland: "Anthropogenic air pollution and environmental history of Copenhagen" (Co-PI). 2011-2012.
- Texas Commission of Environmental Quality: Pilot study for in situ remediation of legacy Dioxin and PCB concentrations in Texas aquatic systems using geosorbent amendment – Phase I". (Co-PI). 2011.
- Northern Gulf of Mexico Institute: "Responses of Benthic Communities and Sedimentary Dynamics to Hydrocarbon Exposure in Neritic and Bathyal Ecosystems. Phase I & II". (Sub-contract) 2010-2011.
- R&K Research: "Analysis of Sediment Cores from the Penobscot River Estuary". (Co-PI). 2008-2011.
- NSF: "MRI: Acquisition of a GC/MS triple quadrupole for the characterization of lignin and other terrestrial plant biomarkers in complex environmental media at TAMUG". (PI). 2009-2010.
- Texas Commission of Environmental Quality: "Fate of Dioxin in the Houston Ship Channel and Evaluation of Natural Remediation Processes". (Co-PI). 2009.
- Texas Commission of Environmental Quality (TCEQ): "Role of black carbon in the partitioning and mobility of dioxins in contaminated sediments of the Houston Ship Channel". (PI). 2009-2010.
- Dept. of Ecology-State of Washington: "Study of Atmospheric Deposition of Air Toxics to the Waters of Puget Sound, Washington". (Co-PI). 2008-2010.
- Texas A&M University-Pathways to Doctorate: Fellowship support for a Ph.D. student. 2008-2010.
- NOAA – Coastal Hypoxia Research Program: "Historical evaluations of increased hypoxia in three basins of the Puget Sound" (Co-PI) - 2005-2008.
- Alliance Program (Columbia/Sciences-Po/Polytechnique): "Science Education: The role of authentic inquiry for building practice and scientific literacy in graduate multidisciplinary professional programs" (PI) - 2005.
- NSF: Collaborative Research: "Riverscope: Large-scale engineering analysis network for environmental research on the Hudson River" (Co-PI) – 2004-2005.
- Columbia University - LDEO: "Testing the efficacy of probability maps as a means of communicating climate forecasts to policy makers" (Co-PI) - 2003.
- Earth Institute - Columbia University: Funding for Post-doctoral Associate (PI) – 2002-2005.
- JOI/USSSP: "Input vs. Preservation of Organic Matter in Peruvian Shelf Sediments during Past Glacial/Interglacial Oscillations" (Co-PI) - 2003-2005.
- NSF: "MRI: Acquisition of Instrumentation for the Chemical and Biological Characterization of Factors Affecting the Distribution and Phytoremediation of Seagrasses in Coastal Bays and Estuaries" (Co-PI) - 2001-2003.
- US Coast Guard Research and Development Center: "Identification and Testing of Ballast Exchange Water", (Invited Investigator) - 2000-2001.
- USGS/Texas Water Resource Institute: "Arsenic Concentrations in Water Resources of the Choke Canyon/Lake Corpus Christi Reservoir System: Surface and Ground Waters", (PI) - 2001-2002.
- Texas ARP: "Contamination from South Texas Uranium Mines: Environmental Fate from Molecular to Watershed Scales" (Co-PI) – 2000-2001.
- TAMUCC College of Science & Technology - Research Enhancement Grant: "Source and Fate of Heavy Metals in Sedimentary Environments of the Nueces River Watershed" (PI) – 2001.
- NSERC-Canada: "Assessment & Modeling of the Production and Emissions of Greenhouse Gases from Hydro-Electric Reservoirs", (Co-PI) - 2000-2003.
- TAMUCC College of Science & Technology - Equipment Grant (Carbon Analyzer): (PI) - 2000.
- NSERC: Equipment Grant (GC/MS), (Co-PI) – 1997
